

Do you know the significance of these numbers?

They are code for marijuana use

- Today's marijuana is much stronger than in the past, is often laced with other drugs, and contains the same carcinogens as tobacco
- Marijuana use leads to poor academic, social and athletic performances
- Marijuana use is less common among adolescents with strong family relationships, close supervision, high academic expectations, and religious faith (Up to Date 2008)

Parenting *is* prevention

Parenting for Prevention Tip #7
